IMAGE OFFSET

Professor Grahame Webb and the staff of Wildlife Management International Pty Ltd (WMI) have spent since 1965 researching crocodiles. Through Crocodylus Park,

they have created a new public education forum on the world's crocodilians that is unequalled anywhere.

The facilities at Crocodylus Park are used for research on crocodilians and other animals including big cats, primates, turtles and birds. All of this research is directed at wildlife conservation, management and sustainable use. Crocodylus Park also boasts a comprehensive souvenir/bookshop and a world recognised museum.

The WILDLIFE COMPANY
